Data and Accountability Discussion

- How did you define an “enrolled” student?
- How did you go about collecting your data?
- What data systems did you use?
- Did the numbers match your expectations?
- Are there errors in your reporting that need to be addressed?
- Did the numbers match your expectations?
- What data systems did you use?
- How do your completion rates by program compare among all your programs offered?
- How did you define a “completion”?

What strategies can we share to improve enrollment numbers?
What strategies can we share to increase enrollment numbers?
What steps need to be taken to improve the data collection process for next year?
What strategies can we share to increase completion rates?
What strategies can we share to improve completion rates?
